DETAILED ACTION

This action is in response to Amendment filed July 3, 2006. Claims 1, 16 and 18-21 have been cancelled as requested by the applicant.

Response to Arguments

Applicant's arguments, see Amendment, filed July 3, 2006, with respect to claim 2 have been fully considered and are persuasive. The rejection of claim 2 has been withdrawn.

Applicant argued the prior art failed to teach the x and y control knobs being coaxial and the rotational axis of the x and y control knobs intersecting the rotational axis of the z control knob.

Allowable Subject Matter

Claims 2-15 and 17 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 2, the prior art fails to teach or suggest a microscope comprising at least one ocular, at least one objective lens and a stage assembly with a planar surface, the stage assembly comprising means for attachment to a frame of the microscope so that the planar surface is essentially perpendicular to an optical path through a center of the objective lens, and an object holder for holding an object for examination by the microscope; means for moving the

object holder relative to the optical path so that a held specimen moves in a z direction parallel or coincident with the optical path the means comprising at least one rotatable focus knob attached to a pinion to move a rack that moves the stage in the z direction and means for moving the object holder in an x or y direction perpendicular to the z direction so that a held specimen moves through the optical path parallel to the planar surface, the means for moving the object holder comprising an x-y control having coaxial x and y control knobs, the x-y control being mounted so that the rotational axis of the x and y control knobs intersects a rotational axis of the rotatable focusing knob of the microscope, when the optical path passes through a center of a specimen holder area of the object holder.

The remaining claims depend from claim 2 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
